

Patient discussion form: diabetes care

1. How well do you feel you understand your diabetes diagnosis?

"I do not understand my diabetes at all"

"I understand my diabetes diagnosis really well"

2. How worried do you feel about your diabetes diagnosis?

"I worry about my diabetes all the time"

"I don't worry about my diabetes at all"

3. To what extent have health care practitioners helped you to understand and manage your diabetes?

"Health care practitioners have helped me very little with my diabetes"

"Health care practitioners have helped me a lot with my diabetes"

In respect to your diabetes care think about the nurses, doctors and other health care practitioners you have met (e.g. dietitians, podiatrists, opticians etc, support workers), the leaflets and information you have been given, and tests you have had and the places you have received care.

Has anything been good about the diabetes care you have been given?

Have you ever been asked to do anything to manage your diabetes that you think has been unrealistic or not possible to achieve because you are homeless?

Yes No

If yes, please tell us about that:

Do you feel you have ever been ‘told off’ by a health care practitioner in relation to your diabetes?

Yes No

If yes, please tell us about that:

Could anything be improved about the diabetes care you have been given?

Thank the person and let them know what the next steps are – if you are able to feed back the results of the project let them know how you will do this.
